Subject: Re: AIR TESTING IS GETTING SET UP .....

Thank you Richard!  
We are welcoming all inquiries , tips ,guidance from EPA's team.  
We are very open to your involvement to what ever degree you wish

All of the equipment has arrived and we are getting the schedule set up  
with Stu Turner,who is setting the air samplers up for us.  
At this point it looks like they will be set up next week  
Please include him in the conversation as well.  
Thanks again,  
Maya

Hello, Maya,

I raised the topic of your air sampling plan in a meeting with EPA  
this  
morning, and if you would find it helpful, EPA has offered to have  
their  
sampling experts take a look at your plan and provide any relevant  
advice. I have copied Sheila, Elizabeth, and Scott on this message.

Richard

Subject: AIR TESTING IS GETTING SET UP .....

Hi all,  
Just to up date Richard,Jae and Karen,  
We are hiring a professional to set up ,calibrate our air testing  
units ,that will be set up at couple different locations at the home  
sites of people tested positive with Timber industry poison  
pesticides.  
We are using state of the art equipment,that EPA uses.

TE-1000PUF..... complete system  
TE-5040 PUF calibration kit.  
TE-QMA4 micro-quartz media  
TE-1009...glass cartridge w/ steel screens.  
Will be set up by a professional,all done legitimately.  
We'll have a base sampling done first  
We are looking forward to share this information with you!  
Thanks,  
Dan and Maya  
p.s. We are taking charge to test the most important element ,since we  
know that AIR is the MAIN pathway that our families are being  
sickened  
by the constant low pesticide exposure ,through revolatalization of  
poison soaked mountains,even months and years after so called spray  
"season".
